and make it available to the entire scholar community in open access. The repository has the ability to capture, index, store, disseminate and preserve ETDs submitted by the researchers.

Shodh Gangotri

The word “**Shodh**” originates from Sanskrit and stands for “research and discovery”. “**Gangotri**” is one of the largest glaciers in the Himalayas and source of origination of Ganges, the holiest, longest and largest of rivers in India. The Ganges is the symbol of age-long culture, civilization, ever-aging, ever-flowing, ever-loving and it is loved by people.

Under the initiative called “**Shodh Gangotri**”, research scholars / research supervisors in universities are requested to deposit electronic version of approved synopsis submitted by research scholars to the universities for registering themselves for the Ph.D. program. Now it is expanded to MRPs/PDFs/ Emeritus Fellowship also. The repository on one hand, would reveal the trends and directions of research being conducted in Indian universities, on the other hand it would avoid duplication of research. Synopsis in “**Shodh Gangotri**” would later be mapped to full-text theses in “**Shodh Ganga**”. As such, once the full-text thesis is submitted, a link to the full-text theses would be provided from **Shodh Gangotri** to “**Shodh Ganga**”.
